Laundry-to-Landscape Pilot Graywater Program

Program Rules

• Laundry-to-landscape kits are only for qualifying households who participate fully in the pilot program. To qualify, households must meet the following requirements:

- Currently have a working washing machine onsite. **A photograph of the clothes washer is required to be submitted with this application.**
- A yard that is level or down-sloping from the location of the clothes washer. **A photograph of the area intended for the graywater use is required to be submitted with this application.**
- A one- or two-unit home that is owned by the applicant. If the applicant does not own the property where he or she intends to install the laundry-to-landscape kit, a Property Release Form must completed and signed by the property owner in order for the home to be eligible for participation.

• Participant agrees to provide proof of San Francisco residency and photo id (CA Driver's License, CA Identification Card, or photo id with identical name on SFPUC water bill).

• Participant must complete a laundry-to-landscape educational workshop before purchasing the kit. This workshop is offered at no cost to the participant.

• Participant agrees to purchase the laundry-to-landscape graywater kit at the Urban Farmer Store. The kit is priced at $117 plus tax. The SFPUC will subsidize $112 and the participant will only pay $5, plus state and city sales tax on the $117 price ($10) for a total participant cost of $15. Additional tools and materials may be required to install the kit; however, the SFPUC will not reimburse the participant for these costs.

• Participant agrees to install the laundry-to-landscape kit according to the guidelines set forth in the SFPUC Graywater Design Manual (which will be provided at the workshop at no cost). Installation of the laundry-to-landscape graywater kit must fully comply with California's graywater plumbing codes.

• The laundry-to-landscape graywater kit must be installed at a SFPUC service address within 60 days of completing laundry-to-landscape workshop.

• Participant agrees to a post-installation survey by the SFPUC and/or Department of Building Inspection (DBI) inspectors to verify installation and collect feedback regarding the laundry-to-landscape system.

• The SFPUC reserves the right to verify the installation of the laundry-to-landscape kit. Failure to allow an inspection of the installed system within 30 days of request or failure to install the laundry-to-landscape kit within 60 days of completing the workshop may result in a $112.00 charge to your water bill.

• **Participant agrees to complete a program participation survey to assist the SFPUC in identifying critical data points regarding the Laundry-to-Landscape Program. This survey will be emailed, mailed or provided via telephone.**

• Participant acknowledges that the property's water use information will be monitored for the purpose of evaluating the effectiveness of the Laundry-to-Landscape Pilot Program.

• The SFPUC reserves the right to alter this program at any time. Funding is limited and kits are available on a first come, first serve basis until funds have been depleted or program terminates.

Send your complete application, clothes washer and landscape photos, and Property Owner Release (if applicable) to:

I certify I have read, understand and agree to the terms and conditions of this pilot program. The undersigned expressly agrees that the SFPUC may inspect all laundry-to-landscape graywater kit installations; that installation of a laundry-to-landscape graywater kit may not result in lower water bills; and that the SFPUC does not warrant any components included in the laundry-to-landscape kit to be free of defects, the quality of workmanship, or the suitability of the premises for laundry-to-landscape graywater kit. The undersigned further agrees to defend, indemnify and hold harmless the SFPUC, their directors, officers, and employees, against all loss, damage, expense, claims, suits and liability, including attorneys fees resulting from the loss, destruction or damage to property arising out of or in any way connected with the Laundry-to-Landscape Pilot Graywater Program or installation of an laundry-to-landscape graywater kit, or any on site technical consultation provided by the SFPUC, its contractors or any subcontractors.
