Enclosed is the FY 06-07 operating budget for the San Francisco Public Utilities Commission Bureaus as recommended by the Mayor and approved by the Board of Supervisors.

The operating budget totals \$60.3 million, a net increase of \$3.3 million over FY 05-06 approved budget of \$57.0 million. The increase funds salary standardization (\$2.9 million) and several new programs. This budget reflects the following organizational changes:

- Transfer of Water Conservation from Customer Services to the Water Enterprise
- Transfer of Environmental/Regulatory Compliance from External Affairs to Infrastructure
- Transfer of the Southeast Community Facilities from Wastewater to External Affairs
- Consolidation of Fleet Management under Business Services Administration
- Consolidation of SFPUC Security under General Manager

New funding was added to support several new programs including: fifty-eight (58) new positions to support the Water System Improved Program (WSIP); funding for mainframe replacement and software licenses; additional support for Health & Safety training; and implementation of a Geographical Information System (GIS) mapping system and the Wastewater Capacity Fee Charge.

Sincerely,

Scott MacDonald

		Reduce Object 026 by \$1,300 to ensure sufficient funding for Southeast Community Facility Commissioners' monthly compensation (\$8,400).						
<u>BCE Customer Services - PUC Operating Fund</u>								
436	001	Attrition Savings - Misc.	9993M	(2.21)	(3.69) \$	(147,927) \$	(246,881) \$	98,954
		Increase attrition savings by \$84,639, from 2.1 percent to 3.3 percent (on a personnel baseline budget that incorporates all the recommended personnel budget reductions). Currently, the budgeted attrition savings in Program BCE are 2.1 percent. However, in FY 2005-06, the PUC is projected to underexpend its Program BCE personnel budget, which already incorporates attrition savings of 2.3 percent, by an additional 3.9 percent. Therefore, the true FY 2005-06 attrition savings rate for Program BCE is 6.2 percent.						
		The Committee's cumulative recommendations for attrition savings would result in the PUC having a 5.4 percent attrition savings rate in FY 2006-07, which is less than the 9.0 percent attrition savings projected in FY 2005-06.						
		Increase Program BCE attrition savings by Classification 1478 Senior Water Services Clerk position (upward substitution recommended for amendment above) which will be filled on October 1, 2006 (0.25 FTE @ \$14,315).

This upward substitution is insufficiently justified in terms of legal mandate, revenue production, or cost savings elsewhere in the PUC's budget. This upward substitution was disapproved by the Board of Supervisors in the PUC's FY 2005-06 budget on the same grounds, noting that the upward substitution was largely intended to provide a promotional opportunity for an experienced staff member. Further, no upwardly substituted information technology positions should be approved ahead of the Controller's and the Budget Analyst's FY 2006-07 citywide information technology audits.

The PUC is implementing program budgeting during FY 2006-07. The PUC advises that under program budgeting, the Water Enterprise will increase from seven to 42 individual budgets, the Hetch Hetchy Program will increase from six to 14 individual budgets, and the Wastewater Enterprise will increase from six to 26 individual budgets. The Committee acknowledges the potential value of program budgeting as a management tool, and the need to ensure that implementation is managed in such a way as to ensure accurate data collection and interpretation. Therefore, the Committee recommends:

1. Approval of the downward substitution of a vacant 1.00 FTE Classification 1675 Supervising Fiscal Officer for a 0.75 FTE limited tenure Classification 0923 Manager II position, to be hired on October 1, 2006. This position should be limited tenure, so that it ceases when the program budget implementation project is complete and there is no longer need for a dedicated management position. The elimination of the Classification 1675 Supervising Fiscal Officer position is in accordance with Recommendation 4.1 of the Budget Analyst's *Phase IV Management Audit of the Public Utilities Commission - Administrative Bureaus and Infrastructure Division*.
2. Disapproval of the upward substitution of the 1.00 FTE Classification 1824 Principal Administrative Analyst position to a 1.00 FTE Classification 0923 Manager II position. The original Classification 1824 Principal Administrative Analyst position is required to provide analytical support to the new limited tenure Classification 0923 position.

Disapprove a 0.75 FTE new Classification 1654 Principal Accountant position and a 0.75 FTE new Classification 1824 Principal Administrative Analyst position, both of which lack sufficient justification.

	Increase attrition savings by \$66,361, from 4.4 percent to 5.8 percent (on a personnel baseline budget that incorporates all the recommended personnel budget reductions). Currently, the budgeted attrition savings in Program BCT are 4.4 percent. However, in FY 2005-06, the PUC is projected to underexpend its Program BCT personnel budget, which already incorporates attrition savings of 4.6 percent, by an additional 5.6 percent. Therefore, the true FY 2005-06 attrition savings rate for Program BCR is 10.2 percent.							
	The Committee's cumulative recommendations for attrition savings would result in the PUC having a 5.4 percent attrition savings rate in FY 2006-07, which is less than the 9.0 percent attrition savings projected in FY 2005-06.							
	Add additional one-time attrition savings in FY 2006-07 related to:							
	- Classification 1824 Principal Administrative Analyst (upward substitution recommended for denial above) which will be filled on October 1, 2006 (0.25 FTE @ \$24,011).

Delete a new Classification 1232 Training Officer position proposed for the Workforce Development Section, Infrastructure Division.

In FY 2006-07, the PUC will fund:

(a) Four existing Workforce Development Section positions which can assist with "coordinating training, securing vendors and space, [and] assisting Bureaus in career planning," providing logistical support, and developing a training plan: 1.00 FTE Classification 0941 Manager VI (\$137,208 plus mandatory fringe benefits), 1.00 FTE Classification 1452 Executive Secretary II responsible for training coordination (\$66,284 plus mandatory fringe benefits), 1.00 FTE Classification 5408 Coordinator of Citizen Involvement responsible for communications coordination (\$91,919 plus mandatory fringe benefits), and 1.00 FTE Classification 1404 Clerk (\$44,349 plus mandatory fringe benefits). Further, 1.50 FTE positions support the Joint Union City Committee in terms of "knowledge transfer and training."

(b) A \$138,125 work order with the Human Resources Department for initiative, team building, and organizational development to support the Infrastructure Division.

(c) A \$645,000 program, project, and pre-construction management services contract with Parsons Water and Infrastructure, Inc. which will include organization and staff development, and technology transfer. This umbrella contract includes the following components: (i) a \$160,000 contract with an organizational development specialist to evaluate the Infrastructure Division's organizational development and recommend changes;

(ii) a \$20,000 contract with a retreat facilitator to foster team building and offer strategies to reduce stress; and (iii) a \$20,000 contract with a team building facilitator to perform staff assessments and recommend a work plan.

Based on the above investments, the Committee recommends against creating a 0.75 FTE new position (1.00 FTE annualized) at a total salary cost of \$56,161 plus mandatory fringe benefits (\$74,881 plus mandatory fringe benefits).

* Reserve \$645,000 of the Professional and Specialized Services budget for the Infrastructure Division's Program, Project and Pre-construction Management Services contract (Parsons Water and Infrastructure, Inc.) pending the PUC's compliance with Board of Supervisors requirements for an integrated annual report which addresses:

- (1) The Board of Supervisors Budget and Finance Committee's request for an annual report on (a) the details of all outside consultants being used for the Water Supply Improvement Program (WSIP), including the scope and cost of each outside consultant contract, and (b) the details of all City staff working on the WSIP, including their classification, duties, and salary costs.
- (2) The Board of Supervisors Governmental Audits and Oversight Committee's request for a contractor performance audit conducted annually prior to the annual Department budget review.

The PUC has not yet provided such an integrated annual report. The PUC states that it anticipates issuing this report by late July of 2006.
