President Kwon read the following statement: Section 4C of the General Manager’s employment contract, which this Commission approved on July 25, 2017, provides that the General Manager is entitled to an annual bonus of up to 3% of his base salary based on this Commission’s annual evaluation of his performance. Last July, the Commission adopted performance goals for FY 17-18 with five categories. A copy of those goals was provided as an explanatory document for Item 14 on today’s agenda. The employment contract states that the Commission shall assign between 0-20 points for the General Manager’s performance on the goals in each of the five categories, and that the General Manager shall be entitled to a bonus based on the sum of all points he receives in all five categories, applied as a percentage of the maximum bonus of 3% of base salary. For example, if the sum of all points in all categories is 80, then the General Manager would receive a bonus calculated at 80% of 3% of his base salary for that year.

He stated the General Manager’s base salary for Fiscal Year 17-18 is $366,678 and that the Commission was awarding the General Manager a bonus of $10,175.00.
