

## McMillen Jacobs Associates 2016 Community Benefits Newsletter

McMillen Jacobs Associates is dedicated to be actively involved with the communities in which we work, live, and serve. As individuals and as a group, we have shown our commitment through continued involvement with the community through volunteering our time and resources to community outreach programs that are in need of support. SFPUC's Community Benefit Program has offered our company an opportunity to get involved and provide some human and monetary resources to the communities nearby SFPUC's Mountain Tunnel project.

### Environmental: Saving the Sequoias.

Through the SFPUC's Community Benefits Program, McMillen Jacobs Associates, participated in the 2016 Yosemite National Park volunteering program. During the summer of 2016, McMillen Jacobs Associates provided 130 work hours towards this program. Volunteers cleaned up campgrounds and performed maintenance work in order to protect the Sequoias and provide a favorable environment for their growth. This work is essential to keep Yosemite Park clean and protect it from the impacts of visiting tourists. McMillen Jacobs Associates participated in this program for the first time this past year and is committed to be involved with Yosemite National Park volunteering program during the upcoming years.

### Educational: Engineering week

McMillen Jacobs Associates engineers participated in the Engineering Week held at Tuolumne County schools during March 2016. Three engineers introduced elementary school students to different STEM activities and shared their career experience with them. The activities carried out during this event helped students to appreciate how STEM knowledge can be applied during real life circumstances and jobs.

### Results: By the Numbers

We're proud of the impact we're making in the different upcountry counties. Here are some of our results for 2016 alone:

- More than 150 volunteer hours
- More than 15 employees involved.
- About \$5k donation toward education projects.
- More than 50 people directly impacted.
- Recognition from the Tuolumne County Superintendent of Schools
