

Non-potable Water System Vendors

This list is intended to provide the public with resources for onsite non-potable water systems. The vendors included below offer a variety of services, including design, manufacture, installation, and ongoing operations and maintenance. By providing this sample list of current technologies and companies, the San Francisco Public Utilities Commission does not endorse, warrant, or make representations or endorsements as to the accuracy, quality or completeness of the listed information, or the competency or effectiveness of listed technologies and companies. The City and County of San Francisco will not be responsible for any loss, damage, cost or expense the user might incur as a result of the use of, or reliance upon, the information and companies listed.

Company Name	Alternate Water Source Systems	Website	General Info	Design	Build	O&M
Acqualogic	Graywater, blackwater, rainwater, stormwater, & other alternate water sources	http://www.acqualogic.com	Acqualogic systems are advanced biological treatment systems that can be employed in new or retrofit projects for flows up to 150,000 GPD.	X	X	X
Aquacell by PHOENIX	Blackwater, graywater, stormwater, rainwater	www.aquacell.us	Aquacell builds & operates water recycling plants. The company has systems that can be retrofitted to existing structures or integrated into a new development.	X	X	X
AquaHarvest Technologies	Graywater, rainwater, stormwater, & other alternate water sources	http://www.aquaharvesttech.com/	AquaHarvest Technologies designs & delivers single source integrated water reuse systems to capture & treat water for a variety of beneficial reuse applications.	X	X	
AquaPoint	Graywater, blackwater, & other alternate water sources	http://www.aquapoint.com/	AquaPoint has a portfolio of fixed-film treatment technologies to address a wide variety of alternate water sources & treatment standards.	X	X	

Company Name	Alternate Water Source Systems	Website	General Info	Design	Build	O&M
aquaTECTURE LLC	Graywater, blackwater, rainwater, stormwater, & other alternate water sources	www.water-pod.net	aquaTECTURE manufactures, installs, finances, and operates decentralized, modular water recycling systems that are intended for distributed, point-of-need water recycling applications.	X	X	X
BIOCLERE	Graywater, blackwater, & other alternate water sources	http://www.bioclere.co.uk/bioclere.php	BIOCLERE is a biological wastewater treatment plant which can be used for single family homes and sites with a population of up to 2000 people.	X	X	
Biohabitats	Graywater, blackwater, rainwater, stormwater, & other alternate water sources	http://www.biohabitats.com/	Biohabitats offers integrated water management strategies that embrace regenerative design.	X	X	X
BRAE	Rainwater, stormwater, & other alternate water sources	http://www.braewater.com/	BRAE offers rainwater systems & related equipment to support individual project plans for homeowners, contractors, or designers.	X	X	
Conservation Technology	Rainwater, stormwater, graywater, foundation drainage, & other alternate water sources	http://www.conservationtechnology.com/	Conservation Technology offers fully integrated, custom solutions for any type of non-potable water reuse. We design and manufacture pre-filtration, storage, pumping, treatment, and control systems.	X	X
