30-Day Construction Notice: Baker Beach Green Street

What: The San Francisco Public Utilities Commission (SFPUC) will begin construction of new green infrastructure (GI) features including rain gardens, infiltration galleries, and pervious concrete at locations along El Camino Del Mar and Sea Cliff Avenue. The project will manage approximately 2.6 million gallons stormwater/year, reduce combined sewer discharges from Baker Beach outfalls, and improve urban habitat, traffic calming and bicycle/pedestrian safety. Construction will also include some water and sewer improvements, and roadway reconstruction along Sea Cliff Avenue.

Who: Minerva Construction, Inc. is the contractor working for the SFPUC.

When: The anticipated start date for construction work is February 11, 2019 with completion scheduled for summer 2020. Weather and/or construction issues may impact the schedule.

Where: Construction will occur along Sea Cliff Avenue from 26th to 25th Avenue and the California Coastal Trail access point to Baker Beach. Construction will also occur along El Camino Del Mar from approximately 32nd Avenue to Legion of Honor Drive.

What to expect during construction:
- While the contractor is required to abide by the City’s noise and vibration ordinances, neighbors should expect some noise and limited dust during this work. The project team will work to minimize disruption to normal neighborhood activity; however there will be occasional inconveniences due to heavy equipment movement and other construction activities.
- Businesses and residents in the work zone will maintain access to their garages, although there may be temporary delays.
- Traffic detours will occur at El Camino Del Mar.
- The California Coastal Trail access to Baker Beach at 25th Avenue North will be temporarily closed during construction. Alternative entries will remain open.
- Parking will be restricted in the work zone. Please see posted signs for exact details.
- No interruption in water service or quality is expected during construction. Advance notice will be given.

Workdays & Hours
(Weather Permitting)

Monday – Friday
7:00 a.m. to 6:00 p.m.
Some weekend work
7:00 a.m. to 7:00 p.m.

The Sewer System Improvement Program (SSIP) is a 20-year, multi-billion dollar citywide investment required to upgrade our aging sewer infrastructure to ensure a reliable and seismically safe sewer system now and for generations to come. For more information visit sfwater.org/SSIP.

Funding for this project has been provided in full or in part through an agreement with the State Water Resources Control Board using funds from Proposition 50. The contents of this document do not necessarily reflect the views and policies of the foregoing, nor does mention of trade names or commercial products constitute endorsement or recommendation for use.
Clean, efficient, reliable...

Every day, we deliver high-quality, efficient water, power and sewer services to serve the needs of the San Francisco Bay Area.

**Water** – Delivering high-quality water every day
We deliver drinking water by gravity to 2.6 million people and businesses in San Francisco, Alameda, Santa Clara, and San Mateo counties.

**Power** – Generating clean energy for vital City services
We generate clean, reliable energy to power vital City services, such as MUNI, streetlights, schools and public buildings.

**Sewer** – Protecting public health and the environment
Through our treatment system and innovative programs, we manage sewage and stormwater, and prevent pollution of the bay and ocean.

Please help conserve water.
