11. Discussion of proposed amendment to Rule 6 of the San Francisco Public Utilities Commission’s Rules of Order, moving the date of the annual election of officers from October to February of each year.

VP Caen requested that the Commission consider a change to Rule 6 of the Rules of Order to move the date of the annual election of officers from the first meeting of October to the second meeting February of each year. She indicated that if she assumes the remainder of President Courtney’s term she would serve as President for eight months. In October, during the normal election period and rotation of officers, she would serve another 12-month term for a total term of 20 months. She stated she wants to serve a full 12-month term, not an eight or 20-month term.

Commissioner Vietor discussed the reason behind the 2012 change of Rule 6 to move the election of officers to October to coincide with the August end of Commission appointment. She expressed reservations with proposed February election which would affect officer terms, depending on appointment date.

Discussion ensued on traditional rotation of officers, guidance of the established rules, and how to fill officer vacancies.

Commissioner Vietor recommended holding a special election in February to address the current vacancy, followed by the regular election of officers in October. The importance of maintaining the traditional rotation of officers was expressed by the Commission, along with additional discussion regarding options.

After further discussion, the Commission decided that an election of officers would be held at the February 26th regular meeting. Those elected would complete the remaining eight months of the current term, with the regular election taking place in October.
