10-Day Construction Notice: 5th, North 6th and Division Streets
CSD Rehabilitation

What: As part of the Sewer System Improvement Program, the San Francisco Public Utilities Commission (SFPUC), will begin construction to rehabilitate three Combined Sewer Discharge (CSD) structures: 5th, North 6th, and Division Street. Construction will occur below ground and within the CSD structures. Surface impacts will be limited to staging equipment and safety barriers around points of entry.

Who: Trinet Construction, Inc. is the contractor for the SFPUC.

When: The anticipated start date for construction is July 1, 2019 with completion scheduled for January 2020. Weather and/or construction issues may impact the schedule.

Where: This work will occur within subsurface Mission Creek CSD structures at 5th Street, North 6th Street and Division Street.

What to expect during construction:
- While the contractor is required to abide by the City's noise and vibration ordinances, neighbors should expect some noise and limited dust during this work. The project team will work to minimize disruption to normal neighborhood activity; however, there will be occasional inconveniences due to heavy equipment movement and other construction activities.
- Businesses and residents in the work zone will maintain access to their properties (including entries, driveways, garages), although there may be temporary delays.
- Parking will be restricted in the work zone. Please see posted signs for exact details.
- No interruption in sewer service is expected during construction.

Sewer improvements are funded through the Sewer System Improvement Program (SSIP) – a 20-year, multi-billion dollar citywide investment required to upgrade our aging sewer infrastructure to ensure a reliable and seismically safe sewer system now and for generations to come. For more information visit www.sfwater.org/SSIP.
Clean, efficient, reliable...

Every day, we deliver high-quality, efficient water, power and sewer services to serve the needs of the San Francisco Bay Area.

**Water** – Delivering high-quality water every day
We deliver drinking water by gravity to 2.6 million people and businesses in San Francisco, Alameda, Santa Clara, and San Mateo counties.

**Power** – Generating clean energy for vital City services
We generate clean, reliable energy to power vital City services, such as MUNI, streetlights, schools and public buildings.

**Sewer** – Protecting public health and the environment
Through our treatment system and innovative programs, we manage sewage and stormwater, and prevent pollution of the bay and ocean.

Please help conserve water.
